

WORLD DIABETES DAY: NOVEMBER 14TH | DIABETES
AWARENESS MONTH: NOVEMBER

Medicines for People, Not for Profit

1 in 3 people with diabetes worldwide
ration insulin because they can't afford it.
T1International is working to change that.

Learn how your small business can
support the fight for #insulin4all.

Who We Are

T11International is a nonprofit led by people with and impacted by diabetes, fighting for global healthcare equity. Through advocacy training, networking, and campaign strategy support, we help those most impacted build local networks and Chapters that push for real policy action.

- Advocacy programs reaching 20+ countries
- Materials available in 10 languages
- Zero pharma funding. We never accept it, so our work stays independent and community-driven.

What Your Gift Supports

- Volunteer leadership skills training for grassroots advocates
- Operating costs that keep our independent work running
- Resources for local #insulin4all campaigns around the world

How Your Business Can Get Involved

Donate a portion of proceeds from World Diabetes Day (Nov 14) or from the whole month of November. Some ideas:

- A percentage of sales for the day or month
- A special menu item, product, or service with proceeds donated
- A round-up or "add a dollar" option at checkout
- A community event or gathering to raise awareness and funds
- A direct business gift

Why Fundraise With Us

Show your customers and community that you stand for health equity and action. Your support helps power grassroots advocates around the world demanding change.
